

Assembly Work Instruction

Step Sheet with Parts & Torque

Give each assembly step a part, a photo slot, torque and a check with sign-off, so a build stays consistent and traceable.

Also available digitally
This checklist can also be completed on a **phone, tablet or PC** in flowdit. Add photos, notes and actions to each item, and generate the report automatically.

12					

One action per step. Show orientation and fit; a wrong or missing part is the classic failure.

Acceptance decision

Rule: every step needs a check before the next; release only when all steps pass.
