Site / area		Date	
Assessor		Period	

Core dimension	Score	Trend	Action
Compliance quality (adherence to standards and SOPs)			
Process consistency (variation across sites, teams, or shifts)			
Risk and severity (impact of failures or non-conformances)			
Efficiency and timeliness (cycle times, delays, rework)			
Outcome quality (defects, incidents, customer impact)			

Score each dimension (e.g. 1-5), mark the trend versus the last review, and note the corrective action. Together the five dimensions give a complete quality picture.
